

A lot of units of measure are named after famous scientists who make important discoveries. You will research each of the following scientist:

- Michael Faraday
- James Joule
- Isaac Newton
- Baron Kelvin
- Heinrich Hertz
- AlessandroVotla
- André-Marie Ampère

You will get the following information for each scientist and put it on your weebly page

- Provide a picture
- When they were born and when they die?
- Where they where born?
- What unit is named after them?
- What does the unit measure?
